

Message

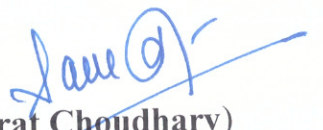

I am delighted to learn that Arrucus Media Private Limited is organizing the “*Rising Bihar – Investor Summit 2026*” on 1st October 2026 at Taj City Centre, Patna. An official summit booklet will also be published to commemorate this occasion.

Bihar, with its rich human resources, vast consumer potential, and entrepreneurial spirit, is emerging as an attractive destination for investment and business. The Government of Bihar is committed to fostering a transparent, progressive, investor-friendly and conducive business environment that encourages innovation, enterprise, employment generation, and sustainable economic growth.

Our visionary and dynamic Prime Minister Shri Narendra Modi Ji believes that the government alone cannot build and develop a nation. A nation is built with the positive thinking of its citizens, their willpower and strong determination.

I am confident that the summit will provide an important platform for investors, industry leaders, entrepreneurs, and other stakeholders to share their views, update their knowledge and explore the opportunities that Bihar offers. I am also confident that this summit will debate purposefully and recommendations of participants will be relevant and meaningful. I am sure that the booklet will be appealing, informative and enlightening for all stakeholders.

On this occasion, I extend my greetings and felicitations to the participants, investors, industry leaders, organizers and all those associated with the summit and also wish the investors a very bright future and the publication of the Summit Booklet all success.

(Samrat Choudhary)
